**Item 2.05. Costs Associated with Exit or Disposal Activities.**

On January 5, 2017, Extreme Networks, Inc. (the "Company") approved and on January 6, 2017 began executing a plan to re-align the Company's resources to take advantage of new growth opportunities as a result of the Company's recent purchase of the wireless LAN business of Zebra Technologies Corporation (the "Plan"). The Plan is expected to reduce the overall costs of the Company and to accelerate the achievement of the Company's 10% operating income margin target objectives. The Company expects to incur charges in the range of \$6 to \$8 million in connection with the Plan. Upon completion of the Plan, the potential savings expected to be achieved as a result of reduced employee related expenses and lower operating costs will yield annualized savings of approximately \$8 million. The costs associated with this Plan primarily include employee severance and benefits expenses. The amount and timing of the actual charges may vary due to required consultation activities with certain employees as well as compliance with statutory severance requirements in local jurisdictions.
