Extreme Networks to Demonstrate Carrier Ethernet Transport and Service Provisioning Solutions at TelcoTV Conference & Expo

SANTA CLARA, CA, Nov 09, 2009 (MARKETWIRE via COMTEX News Network) -- Extreme Networks, Inc. (NASDAQ: EXTR) today announced it will be exhibiting at Light Reading's TelcoTV Conference and Expo, November 10-12, 2009 in Orlando, Florida. The company will be demonstrating its MEF-Certified and RUS-Accepted Ethernet Transport solutions in booth #1117. Extreme Networks Ethernet Transport solutions increase carrier network longevity while improving subscriber loyalty for residential triple play, business Ethernet and mobile backhaul services.

In addition, Extreme Networks will demonstrate its service provisioning solution, showcasing the point-and-click provisioning of protected Ethernet rings, as well as the activation of services across an Ethernet Transport network. This demo will showcase resilient Ethernet rings protected by the Ethernet Automatic Protection Switching (EAPS) protocol allowing service continuity in the event of a fiber cut.

About TelcoTV 2009

TelcoTV is the telecom industry's premier event for the exploration of a comprehensive entertainment convergence strategy. TelcoTV brings together service providers of all sizes, with a common interest in transforming their organizations into entertainment powerhouses. The TelcoTV exhibit hall is packed with hundreds of vendors showcasing technical solutions and cutting-edge content to help telcos compete against cable and satellite. The event will be held at Orange County Convention Center in Orlando, Florida November 10-12, 2009.
