 - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 7.01. Regulation FD Disclosure.

As described in the press release attached as Exhibit 99.1, Extreme Networks, Inc. (the "Company") held a meeting with investors and made an audio-only webcast of the event available on the Company's website at www.extremenetworks.com. The presentation included a discussion of the Company's target business model of gross margins of 58 to 59%, research and development expenses of 16 to 17%, sales and marketing expenses of 25 to 26%, and general and administrative expenses of 8%, with total operating expenses between 49 and 51% and an operating margin of 8 to 9%.

The above target business model percentages are derived from the Company's non-GAAP business model. This non-GAAP business model excludes the effect of stock-based compensation expenses. The Company does not have an equivalent GAAP business model. The target business model reflects the Company's goals and objectives it hopes to achieve over the next two fiscal years and achieving it in that time frame is subject to various risks and uncertainties, including the Company's ability to control expenses, competitive pressures and other risks, including those described in the Company's filing with the SEC; there can be no assurance that the model can be achieved or the time frame within which it can be achieved.

Item 9.01. Financial Statements and Exhibits.

Extreme Networks, Inc.

Extreme Networks designs, builds, and installs Ethernet infrastructure solutions that help solve the toughest business communications challenges. The company's commitment to open networking sets us apart from the alternatives by delivering meaningful insight and unprecedented control to applications and services. Extreme Networks believes that openness is the best foundation for growth, freedom, flexibility and choice. The company's focus is on enterprises and service providers who demand high performance, converged networks that support voice, video and data over a wired and wireless infrastructure.
