Extreme Networks Delivers Cutting Edge Innovation and Technology at HIMSS 2015

Company to Deliver Keynote Speeches About the Role of the Network in the Modern Healthcare Environment

SAN JOSE, Calif., April 8, 2015 /PRNewswire/ -- [Extreme Networks, Inc.](#) (NASDAQ: EXTR) today announced that it will join more than 40,000 healthcare professionals in Chicago next week for the [HIMSS 2015 Annual Conference & Exhibition](#), the largest health IT event in the industry. The world of healthcare IT is continuing to evolve at a rapid pace and it is critical that today's healthcare organizations implement the proper infrastructure in order to successfully deploy and support cutting-edge, digitally-enabled tools, wearables and mobile applications.

At HIMSS, Extreme Networks will present keynote speaking sessions addressing how technology advancements have propelled healthcare leaders like [Henry Ford Health System](#) to reevaluate and invest in their network infrastructure. Additionally, Extreme Networks is serving as the network provider for the [Intelligent Hospital Pavilion](#), a 26,000 square foot, full mock-up hospital setting showcasing the most innovative healthcare technologies.

SESSION 1
- **Who:** Bob Zemke, director of healthcare solutions, Extreme Networks
- **What:** Network Analytics: Evidence Based IT Support
  Applications, devices and end users all have a common dependency within an intelligent hospital: the data network. Whether wired or wirelessly connected, an incredible amount of information flows across the hospital IT network. Learn how network analytics can be leveraged in supporting health IT systems for evidence based care.
- **When:** Monday, April 13, 2015 at 4 p.m. CT
- **Where:** Intelligent Health - Leadership Theater

SESSION 2
- **Who:** Bob Zemke, director of healthcare solutions, Extreme Networks
  Doug McDonald, manager, wireless network team, Henry Ford Health System
- **What:** Supporting Hospitals with Intelligent Networks
  Preparing for the digital hospital requires an understanding of the applications and devices that will be leveraged for improving patient outcomes. The explosive growth of new technologies applied in clinical settings is placing new burdens on the data infrastructure and those tasked with supporting it. Learn some of the common challenges facing hospitals today regarding infrastructure design, device support and FDA compliance and how to most effectively address them.
- **When:** Tuesday, April 14, 2015 at 2 p.m. CT
- **Where:** Intelligent Health - Leadership Theater

Extreme Networks will also share its show booth with some of its alliance and solution provider partners focused on healthcare IT, such as Barco, a global technology company that designs and develops visualization products. Additionally, the company will be hosting a Booth Crawl with several members of the Extreme Partner Network, including Unify, Spectralink, Critical Life Alert and FUJIFILM Medical Systems U.S.A. Participants will be entered into a daily raffle to win an Apple Watch, and all pre-registrants will instantly win a $15 iTunes gift card. Registration is open to all attendees and those interested can register [here](#).
