Extreme Networks Identifi™ Wireless LAN Wins Network Computing Magazine's Wireless Product of the Year

Readers honor full-featured, scalable and sophisticated enterprise mobility platform

SAN JOSE, Calif., March 24, 2014 /PRNewswire/ -- Extreme Networks, Inc. (Nasdaq: EXTR), a leader in high performance networking, today announced that its Identifi™ wireless LAN system for fast and secure mobility, supporting BYOD, has been named *Network Computing* UK's Wireless Product of the Year. Winners were announced at an awards ceremony that took place at Hotel Russell in London on 14th March.

Readers of *Network Computing* voted Extreme Networks Identifi wireless LAN system as the most significant offering in the closely watched mobility space where the issues of simplified management, intelligence combined with analytics, and robust speeds are at the forefront of most purchasing decisions of IT professionals.

"The sophistication, performance and wealth of functionality makes Identifi wireless a clear standout in the industry and we are proud to be recognized by *Network Computing* and its loyal readers," said Mike Leibovitz, director of mobility and applications, Extreme Networks. "This has been a great year for Extreme Networks as we tackle the most challenging wireless environments and continue to deliver simple, fast and smart solutions that enables IT to deliver excellent experiences to their end users."

"The *Network Computing* Product of the Year Award is further testament to the successful integration of how two leading technology companies, Extreme Networks and Enterasys Networks, have combined their products and technology to become a leader in the network computing space in the UK and how our channel partners continue to embrace and highly recommend our wireless portfolio to our customers," said Steve Johnson, head of UK and Ireland, Extreme Networks. "We strive to offer best of breed network technologies that improve operational efficiencies and performance to help meet business needs. This *Network Computing* award follows our introduction of Purview, our first to market network-powered application analytics tool that is enabling businesses to derive valuable data that can aid growth and revenue streams."

This award follows Extreme Networks' participation in [Wireless Field Day 6](#). (WFD6) where Extreme Networks wireless LAN solutions were presented to leading bloggers.
