Extreme Networks Showcases High Performance Networking Expertise at SC'13

Company Offers Product Demonstrations and Sessions on Accelerating Super Computing Performance Through Converged Ethernet Networks

SAN JOSE, Calif., Nov. 18, 2013 /PRNewswire/ -- Extreme Networks, Inc. (Nasdaq: EXTR) today announced it will showcase its high performance networking portfolio and participate in a series of speaking sessions during the upcoming [SC13](#), held in Denver, Colorado (Nov. 17th -22nd). Extreme Networks will showcase its HPC solutions and unveil its purpose-built Top of Rack switch, the [Summit X770](#) , and its flagship switch, the [BlackDiamond@ X8](#) will power the conference [SCinet](#) with high-speed, low latency networking.

Exhibition Highlights:

Extreme Networks will demonstrate how enterprises can develop the networking features required for High Performance Computing (HPC) and Big Data Hadoop deployments in collaboration with its latest partner, [SGI](#), a trusted leader in HPC solutions inside the exhibition hall at booth #801.

Education Highlights:

Experts from Extreme Networks will share their visionary industry insights at these sessions:

[The Role of Software-Defined Networking \(SDN\) in the Big Data Equation](#)

Bithika Khargharia, Ph.D., senior engineer for vertical solutions and architecture and Glenn Ricart, Ph.D. and chief technology officer for US Ignite, will lead a panel discussion on how SDN has huge potential to address the evolving connectivity requirements of Big Data due to the rapid transition towards a fully networked world. **Where:** Room #703 **When:** Tuesday, November 19, 2013 | 12:15 p.m. — 1:15 pm MT

[Accelerating High Performance and Super Computing with Ethernet](#)

In this session, Nadeem Zahid, director of product line management will share insights into how Ethernet is poised to erode the InfiniBand market over the next few years, and the trends fueling the shift. **Where:** Room #503/504 **When:** Thursday, November 21, 2013 | 11:30 am — 12:00 pm MT
