

Extreme Networks Reports Third Quarter Financial Results

---Revenue of \$77.2 million: Pro-Forma Net Income of \$1.2 million

SANTA CLARA, Calif., April 23, 2009 /PRNewswire-FirstCall via COMTEX News Network/ -- Extreme Networks, Inc. (Nasdaq: EXTR) today announced financial results for its third quarter ended March 29, 2009. For the quarter, net revenue was \$77.2 million, compared to \$82.0 million in the year-ago quarter.

Non-GAAP net income for the third fiscal quarter of 2009 was \$1.2 million or \$0.01 per diluted share, excluding \$1.2 million in share-based compensation charges and \$2.1 million in restructuring charges, compared to year-ago non-GAAP net income of \$1.1 million or \$0.01 per diluted share, excluding \$1.3 million in share-based compensation. A reconciliation of GAAP to non-GAAP financial measures is included in the accompanying financial tables.

"We delivered positive pro-forma earnings in a challenging market and took steps to reduce our cost structure," said Mark Canepa, president and CEO of Extreme Networks. "In addition, during the quarter we continued to deliver new products to meet the demand for cost-effective bandwidth for the carrier, enterprise and data center markets."

Net loss on a GAAP basis was \$2.2 million or a loss of \$0.02 per diluted share. That compares to the year-ago net loss of \$0.2 million or a loss of \$0.00 per diluted share.

For the third fiscal quarter of 2009, revenues in North America (U.S., Canada, and Central America) were \$26.9 million, revenues in EMEA (Europe, Middle East, Africa, and South America) were \$38.5 million, and revenues in APAC (Asia Pacific and Japan) were \$11.8 million. That compares to the year-ago revenues of \$31.0 million in North America, \$38.2 million in EMEA, and \$12.8 million in APAC.

Cash and investments were \$120.8 million as of March 29, 2009, a decrease of \$22.7 million sequentially from the fiscal second quarter, primarily due to the timing of trade accounts payables and accrued liabilities payments, which vary throughout the year. Over the nine months since the start of fiscal 2009, the Company utilized \$4.0 million in cash for operating activities.

Non-GAAP Financial Measures

Extreme Networks provides all financial information required in accordance with generally accepted accounting principles (GAAP). To supplement our consolidated financial statements presented in accordance with GAAP, we are also providing with this press release non-GAAP net income. In preparing our non-GAAP information, we have excluded, where applicable, the impact of restructuring charges (a non-recurring charge) and share-based compensation (a non-cash charge). Because of the non-recurring and/or non-cash nature of these charges, we believe that excluding them provides both management and investors with additional insight into our current operations, the trends affecting the Company and the Company's marketplace performance. In particular, management finds it useful to exclude these charges in order to more readily correlate the Company's operating activities with the Company's ability to generate cash from operations. Accordingly, management uses these non-GAAP measures, along with the comparable GAAP information, in evaluating our historical performance and in planning our future business activities. Please note that our non-GAAP measures may be different than those used by other companies. The additional non-GAAP financial information we present should be considered in conjunction with, and not as a substitute for, our financial information presented in accordance with GAAP. We have provided a non-GAAP reconciliation of the Consolidated Statement of Operations for the periods presented in this release, which are adjusted to exclude restructuring charges and share-based compensation expense for these periods. These measures should only be used to evaluate the Company's results of operations in conjunction with the corresponding GAAP measures for comparable financial information and understanding of the Company's ongoing performance as a business. Extreme Networks uses both GAAP and non-GAAP measures to evaluate and manage its operations.
