

Extreme Networks to Present on Network Virtualization and Cloud Computing at the Data Center Dynamics Conference

Data center network and virtualization expert to detail evolving network and virtualization strategies that save costs and unleash the promise of the network

SANTA CLARA, Calif., July 15, 2010 /PRNewswire via COMTEX News Network/ -- Extreme Networks, Inc. (Nasdaq: EXTR) today announced its participation in the educational track at the [Data Center Dynamics](#) conference in San Francisco, on Friday, July 16th.

Shehzad Merchant, senior director of strategy for Extreme Networks, will discuss the needs for efficient, scalable, automated and customized networks in the data center, highlighting the transition from a physical network, to a virtual network and onto the cloud. The discussion highlights the transformation from a dedicated, or siloed, application specific network to a shared and outsourced cloud infrastructure, where increased automation and customization of the network are critical.

Event: Data Center Dynamics Conference

Session Title: Data Center Virtualization - from Physical to Virtual to Cloud

Presenter: Shehzad Merchant, sr. director of strategy for Extreme Networks

Place: Hilton Hotel, 333 O'Farrell St, San Francisco, Calif.

Date: Friday, July 16th / 11:05 am -11:50 am PDT
